Experience

May 2024 - Present
[Homelab Systems Administrator](#) – *Personal project*

- Redesigned and reimplemented a personal homelab environment using Proxmox, TrueNAS, PfSense and Debian.
- Deployed and configured docker containers and other services for users in my local network to use (e.g. Nginx, SMB/Samba)
- Setup basic and secure networking with UniFi access points and a PfSense firewall/router

July 2021- March 2024
ShopRite (Food Parade Inc.), Plainview NY – *Front End Manager/Associate*

- Oversaw daily operations of the front end department, ensuring efficient and smooth checkout processes and extraordinary customer experience.
- Automated repetitive tasks done on a computer using different assortment of tools and writing custom python programs/scripts.

March 2025 - Present
Game Network Server Admin – *Personal project*

- Designed, configured, and maintained a network connecting multiple Java game servers together
- Managed backend server infrastructure in order to optimize server performance and ensure a great player experience.
- Maintained a strong community of users that play by releasing constant updates and fixes.

Education

2016 - 2020
Plainedge High School, North Massapequa NY – *High School Diploma*
